

I am one voter who is thoroughly disgusted with Sinclair's overt attempt to sway the 2004 election. If the showing of this film goes ahead, I will boycott my local Sinclair station until the cows come home (which they don't often do in Iowa, since it is mostly a corn and soybean state.) I like fairness in life and the Republican biased FCC is about to practice the furthest thing from fairness. The airways do not belong to you or President Bush, though you do control them right now. Move ahead with your fascist plans; I hope you rot before they succeed.
